Assistant Treasurer	William Perry
Coordinator (Organising)	Horacio Rodrigues
Coordinator (Workshop Maintenance)	Mark Beaver
Club sales Coordinator	Darinka Radinovic
Librarian	Darinka Radinovic
Newsletter Editor	Virginie Schmelitschek / Julien Leveugle

#### **Hello Fellow Woodies**

It is September, and I am due to get you another newsletter. It has been a sparse few months, so this will be short and sweet!

#### **Member news:**

Pat sent me his **Turn Up 2024** Report:

Turn Up 2024 was held at the Lake Keepit Sport & Rec, Lake Keepit, which is 1/2 hr east of Gunnadah.

The aim is for a group of Wood Turners to Turn up and Turn. There are no formal classes or lectures. Learners are welcome and there was 1 novice turner in this year's group. Informally, I saw a demonstration of some custom-made tools and some hands-on training in cutting beads.

There were 18 participants, some with partners. 14 turners, with scroll saw, carvers and

miscellaneous wood crafters making up the numbers.

It is held in the main hall, in air conditioned luxury, and we were accommodated in bunk rooms, 2 or 3 people per room. The weekend goes from Friday to Monday morning, and it has a social atmosphere, where collaboration was the theme.

Cost of the weekend is \$350, including accommodation and meals, and I did not go hungry.

Was it worth it? Yes. Will I do it again? Yes.

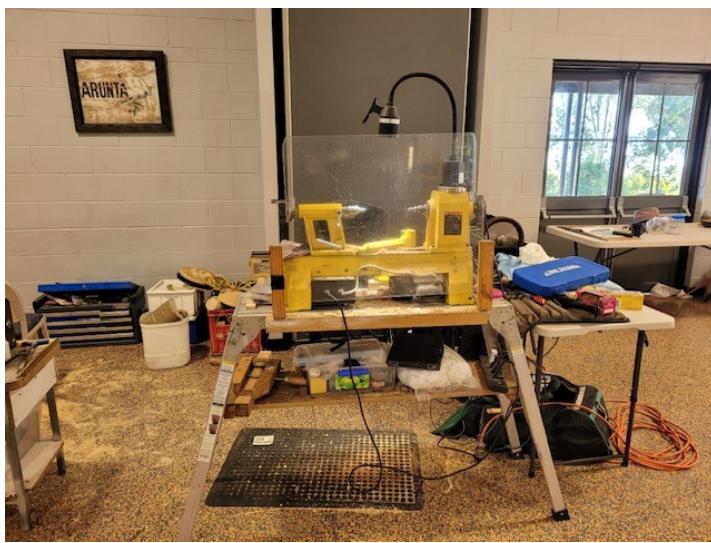

And if anyone is interested in going next year, I'll share my lathe.

### **Pat Keefe**

Photos of Pat's weekend:

Pat turned this wood iron (for sewers and quilters) there, after the above example from a magazine.

Pat's set up at Turn Up.

### **Work from our members**

Put turned these rolling pins at home

Rick's School of fish plaque and Early Australia plaque

Aron made the bar table which is for sale.

Michael made this clock.

Masi's  
first  
pyrography!

Masi, one of our newest members, made this beautiful (cheese) board and she would like to thank Pete and Horacio for their help and Rick for lending her his pyrography tool.

## ***Stalls and Events***

On August 17, 4 of our members helped out at our table at the Illawarra Family History Group's Fair at the City Diggers (RSL) and a number of items were sold, \$104 was raised and new connections were made as well as some great conversations were had.

Darinka and Horacio at the stall.

Thank you to all those who volunteered in setting up, giving up their time at the stall, and again taking it all down, and bringing it back to the shed. Thanks for organising, Darinka.

**Helensburgh Fair - 26 October** This is a very popular, big fair and a great opportunity for our club to sell items. You can sell your own items, as well as sales for the club. We will need quite a few people to help on the day, so please volunteer for this and keep our club viable! It is close to Christmas, so keep that in mind!

### **Workshop Safety - a message from the Workshop Coordinator**

**(we cannot be reminded of this often enough!)**

- **IMPORTANT:** Work shop safety must always be at the top of our list of priorities. Wear suitable clothes and enclosed shoes.
- Always ensure the dust **collector gates** are open when you use the equipment in the shed. ASK someone, if you are not sure what to do.
- Get help with the correct procedure for the **sawdust bag**.
- Clean up a machine and the floor after use, if significant mess. DO NOT ASSUME SOMEONE ELSE will use it after you. Do it as you go.
- Put the hose in to the **vacuum cleaner** the right way! If it is not sucking up the mess, empty it!
- The drum sander **cannot** have painted or varnished timber going through it as it will clog up the sandpaper.
- The table saw is      NOT a storage space
  - NOT a work bench
  - Put **NOTHING** on the extension
- Use *eye, ear, head and feet protection too, no loose clothes, and, keep an eye on people around you.*
- *Sometimes it's just the simple things we all forget, like if you have medium/long hair, tie it up if working close to moving machinery.*
- **NEVER be complacent - blades bite!**

*(the last 3 dot points were copied from "Ingrained" the Knox newsletter)*

### **LIBRARY**

Our club library is available to all members with copies of Australian Wood Worker, Fine Woodworking, etc. available to get some ideas on your next project. Just remember to sign out and back in anything that you need.

## NEWSLETTER ITEMS

### Other Woodworking groups

If you are interested in what other Woodworker Groups are doing, Pat kindly supplies me with the links to the Knox and District Woodworkers Club (Vic) NEWSLETTER

The [LATEST KDWC edition](#) of the "Ingrained" newsletter is now at <https://www.knoxwoodies.org.au/current>

## Time for some fun:

"IT'S OK, WE'RE LETTING THE LUMBER AGE."

"I DON'T CARE IF YOU BUILT IT YOURSELF.  
THIS PLACE IS A FIRE TRAP."

"Remember, measure twice, cut once,  
stand baffled, string together obscenities."

"You constructed a beautiful work table. You're a  
talented woodworking legend in your own life."

This is your lot for this newsletter. Please send in anything you think may be useful/fun for our members.

Cheers
